Town Message

Gore Bay may be a small town, but we are large in community – and 2026 reflects that spirit more than ever.

This past year has seen incredible progress.

Our Downtown Revitalization Project is now complete, bringing renewed life, accessibility, and beauty to the heart of our community. We are also proud to share that the new Long-Term Care home build is beginning, a major investment that will support residents and families for generations.

Gore Bay continues to be a vital regional service hub, supported by five local doctors, ongoing medical building renovations, and the recent relocation and expansion of the dental office – all contributing to stronger local health care.

Together, these projects highlight our commitment to a thriving, healthy, and forward-looking community.

Thank you for being part of Gore Bay's continued growth and success.
